Outdoor IP Wireless Kits

HD Video Security Kits

Maximum Performance

- ✓ Plug & Play Do-It-Yourself Kits
- ✓ Internet & Smart Phone Viewing
- ✓ Long Range Outdoor Night Vision
- ✓ Motion Activated Alerts & Recording
- ✓ IP & Network
- ✓ Custom System Design
- ✓ 3 Year Warranties
- ✓ Expert Advice & Support

Keep it simple...do it yourself and save!

Backstreet Surveillance is a “Professional Grade” video surveillance distributor. We offer high performance equipment and expert support nationwide. We do not compete with big box stores or consumer grade prepackaged kits. Our specialty is providing top performing, professional grade systems, at the lowest possible price.

We tailor each system to the customers needs and support them with our award winning technical department. Our experts can answer questions, recommend cameras and provide custom quotes.

We constantly test and evaluate new equipment looking for exceptional performance that meets our quality standards. Our buying power allows us to negotiate and purchase directly from the manufacturers. No wholesale, middlemen or dealers are involved. This eliminates costs that many of our competitors simply pass on to the customers; instead we pass the savings on to you!

We back our equipment with a full 3 year warranty and free lifetime technical support. Add in free shipping and our 30 day money back guarantee and it’s easy to see Backstreet Surveillance is the right choice. The Backstreet Promise says it all: We promise you will not find a lower price for the same quality and support...anywhere!

We pride ourselves on meeting our customers expectations and our efforts have earned thousands of 5 star customer reviews. Visit us on line for the latest deals, our free how to guide “Video Surveillance Made Easy” and receiving a custom system design quote.

Do-It-Yourself Installation

Our equipment is the same equipment Professional Security Dealers install. The only difference is, you don't have to be a pro to install our systems. Designed for the beginner, each kit includes everything you need for a quick and easy installation. Back by our award winning customer support department; Do-It-Yourself security and surveillance has never been easier.

Our Kits Feature

- Simple instructions
- Easy installation
- All part & equipment needed
- Simple start-up programming
- User friendly controls
- Most reliable equipment available
- Unlimited Technical Support

USA Based Tech Support

We are an American owned company and we provide USA based, Free, Unlimited, Life-time Technical Support for all the equipment we offer. Don't hesitate; if you have a simple question or need help with remote viewing setup or trouble shooting...our professional, friendly technical staff is here and ready to help! Many times we can resolve an issue by remotely logging into the system and solving the issue in minutes. We're here and ready to help!

Best Quality Guaranty

We only offer reliable equipment that has been completely tested and has a proven track record. Each item is shipped in new condition and includes an easy to follow user guide written in clear English. In addition, we test each item at our facility prior to shipping to insure it is operational and meets its advertised performance. Our goal is simple; quality you can count on and 100% customer satisfaction.

Extended 3 Year Warranty

All equipment is covered under a complete 3 year warranty from the date of delivery. During this time all products are guaranteed against manufacturing and operational defects. In the event of such defects during this period, it is our responsibility to replace the defective item with an exact or comparable product.

Home & Small Business - Wireless Video Security Kits

RF-Plus Series

This radio frequency system is a breeze to setup. The cameras provide great video to the integrated DVR-Monitor unit. The built-in microphones provide great audio indoors and out.

- High Quality Video
- Indoor & Outdoor Audio
- Motion Activated Recording
- Easy One Step Setup
- Records to SD Memory Cards
- Remote Smart Phone Viewing

Wifi-Pro Series

The wireless router built into the DVR allows the system to create its own secure IP wireless network. High quality HD video is streamed live to the DVR. Easy one step setup and freindly user interface.

- HD-High Definition
- Motion Activated
- Plug & Play Setup
- Wireless IP Network
- Reliable & Secure
- Internet & Smart Phone Viewing

Wireless Transmission Distances)))

Both systems provide reliable video transmission up to 100 feet indoors through multiple walls and floors and 300 feet line of sight outdoors. Certain building materials such as large amounts of metal or concrete can reduce performance.

- Indoor 100 Feet
- Outdoor 300 Feet

User Friendly Software—Point & Click Operation

Wired Systems

Color-Code

We make choosing the right equipment **EASY!**

Our Color Code System groups the different technologies and their performance levels into color coded categories. Below is a simple explanation of the different performance levels.

Video Clarity

Video clarity is determined by the size of the recorded video. Each technology produces a specific size of video. Larger recorded images produce higher quality video.

HD video records in such a large format you can "zoom" into the video while maintaining excellent clarity. Perfect for facial identification and capturing license plates!

Data collected from over 12,000 customers.

Customer Satisfaction Ratings

HD-CVI Cameras

"HD-CVI" - Hands Down - Consumers #1 Video Surveillance Choice! This new technology combines the low cost and easy installation of the old analog CCTV systems with crystal clear HD video! The best of both technologies adapted into an affordable solution. CVI utilizes the durable and proven wiring and cabling of the analog CCTV technology but transmits crystal clear digital HD video as the IP network technology offers....all at a fraction of the price.

Digital Video Recorders

"HD-CVI" - Hands Down - Consumers #1 Video Surveillance Choice! This new technology combines the low cost and easy installation of the old analog CCTV systems with crystal clear HD video! The best of both technologies adapted into an affordable solution. CVI utilizes the durable and proven wiring and cabling of the analog CCTV technology but transmits crystal clear digital HD video.

Triple Hybrid Operation HD-CVI, CCTV & IP

Dual-stream video compression gives all our CVI Video recorders the ability to support HD-CVI, Analog CCTV cameras and two New-Tech IP cameras. Each unit includes:

- HD-CVI Live 1080p Viewing All Channels
- HD Recording 1080p@15fps, 720p@30fps
- Analog CCTV Recording D1 700 TV Line
- Supports 2 HD IP Cameras

HD-IP Cameras

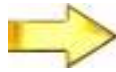

Network and IP based technology provides the most flexible HD surveillance system design. The software is refined and supports remote camera locations, as well as network based camera connection viewing and recording. This incredible technology provides superior system design options including reliable and secure connections. The cameras can be connected directly to a DVR with a network cable, or plugged into an existing network for full viewing and recording.

Elite-IP Cameras

"Elite-IP" - The Best Performance on the Market! This ultra high performance technology is IP based using standard network cable such as Cat5 or Cat6 to transmit the video signal. The built in PoE (Power over Ethernet) means only one cat5 cable is needed from the DVR to the camera location to transmit the video and power the camera; true plug & play install!

Education, Advice & Tips

There are thousands of different types of security and surveillance solutions on the market, and finding the one that best fits your needs...at the right price...can be confusing. The truth is, selecting the right equipment and installing it yourself is a lot easier than you may think. Spending a few minutes to study our on-line Video Surveillance Made Simple Guide will allow you to make an informed and smart choice. Plus you'll sound like an expert when you are talking to others about video surveillance.

Custom Quotes

Our experienced design experts are ready to discuss your application and provide a detailed quote for a system designed specifically for your application. Simply give us a call on our toll free number or use our Custom Quote Request Tool on our website. Either way we'll have a custom designed quote to you in no time at all.

Customer Support Guides

Each order comes with a Customer Support Package in advance, providing shipping and delivery details, as well as information on how to get started. Included with the package is a customer support CD, which includes all the manuals and guides you'll need. The CD is an invaluable resource for quick reference on "How-to", including technical details on each product.

More Products & Solutions

Not all our products are listed in this catalog. Visit our website www.Backstreet-Surveillance.com for a complete listing of all the items we offer including HD-SDI and CCTV equipment.

Free UPS Shipping

Remember! Any order over \$200 includes FREE UPS Ground shipping!
